Copy 6 of 7.

14 March 1956

MEMORANDUM FOR : Project Director

SUBJECT : Attached Memo on Staging of Overseas Deployment
(SAPC-4433)

1. Jim Cunningham's memo on movement of personnel from [redacted] raises a good point regarding security aspects of too many aircraft appearing at Watertown at one time. I propose to discuss this problem with [redacted] and other people concerned on my trip to Watertown next week. According to our basic agreement SAC is responsible for movement of personnel and equipment from Watertown to overseas bases. I do not know if this includes DC-6 aircraft for movement of personnel.

2. I will cover these points when I am out there and if there is any action necessary by this headquarters, if time is essential we will send in a wire stating what action we would like this headquarters to take. [redacted] is of the opinion that [redacted] possibly has this movement pretty well arranged already.
